4 *Book of Resolutions* paragraph (§): 000.0

5 Conference Committee/Agency, et al. that would be affected by/responsible for

7 Financial Implications: N/A

9 Brief Rationale:

10

11 **Whereas** the Federal Depository Library Program (FDLP) was designed to
12 provide public access to government information through a cooperative network
13 of geographically dispersed depository libraries; and

14

15 **Whereas** the Government Printing Office (GPO) has taken leadership
16 coordinating efforts to convert print and microform government information to
17 electronic format; and

18

19 **Whereas** there is no complete inventory or comprehensive catalogue of
20 government publications necessary to facilitate efforts such as large-scale
21 cooperative services, collection development, and housing of materials.

22

23 **Therefore be it resolved** that the GPO explore within current law all options for
24 cooperative collection development and maintenance, including shared housing
25 agreements between regional depositories and selective depositories; and

26

27 **Therefore be it further resolved** that the GPO create an inventory of all
28 government publications held in depository libraries.
