# CHURCH STATISTICS MODULE

## STATS HOME

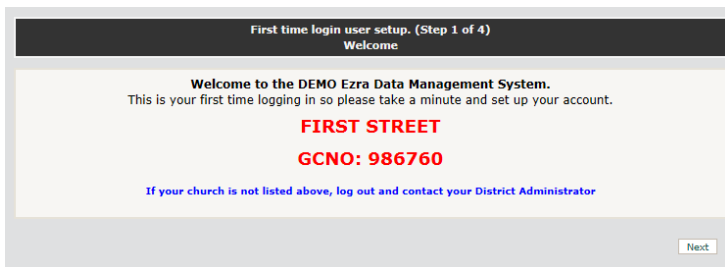

Ezra's Statistics module is designed to allow churches to submit their year-end statistics to the conference digitally.

## LOGGING IN

**First Log In** (\*If you have already logged in you can skip to the next section)

You can access the program by going to <http://ezra.gcf.org>. Once there, log in with the information provided to you by your conference office. If you do not know your information, try contacting your conference office.

1. The first time you log into the program, you will go through a few initial steps to set up your user. In the first step, your church and church GCNO is listed. If this is not your church, please contact your district or conference administrator. Click the **Next** button.

ENTER STATS

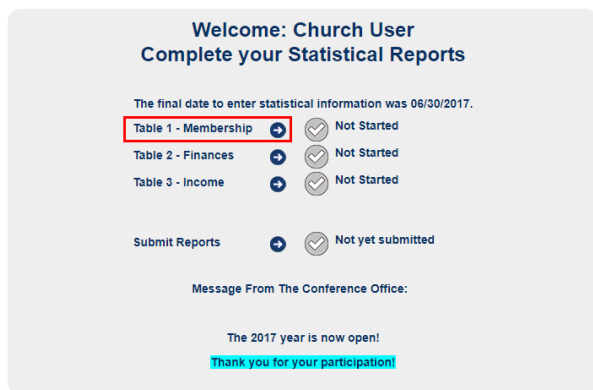

After a **Conference** is selected, the dropdown box will display the selected conference and the number of churches in the database that belong to that conference. To further narrow the results, enter the name of the church in the **Church Name** search box or any other information in the related search boxes, then click the **Search** button.

Commented [TB1]: What does 180 in the screen shot refer to?

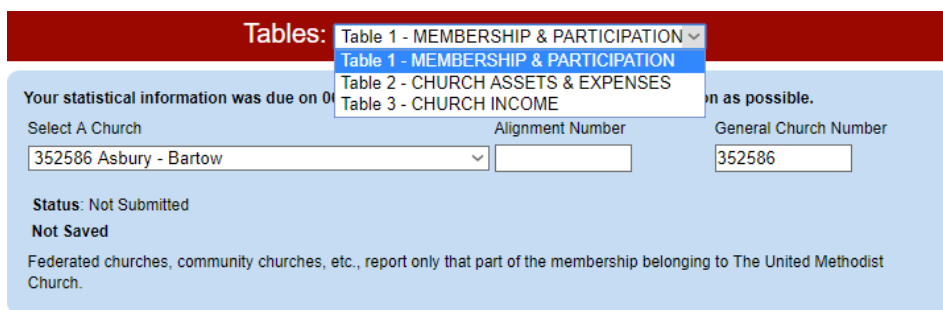

1. Select the year for the statistics that you are entering from the dropdown box.

2. Select the desired table to begin entering data.

3. Select the desired table from the dropdown box. Your alignment number and GCNO will automatically prepopulate.

4. Use the form that you filled out manually to populate the selected table. As you fill out the table the lines will reflect any errors or concerns.

Refer to the color guide for the color-coded issues.

- Lines imported from the Conference or Auto-Total cannot be changed. Values from VitalSigns can be edited/overwritten.
- Once you are done entering in your values, click SAVE.

**WARNINGS and ERRORS:**

- Your conference has the option to have the system automatically check lines for increases/decreases or math errors.
  - If you report an item that triggers a warning, you have the option to edit the line (if it was incorrect) or enter in an explanation for the increase/decrease. Your conference will choose whether warnings must be corrected or explained in order to submit your report. If explanations are required, you will not be able to submit without entering an explanation.
  - All errors must be corrected -- tables cannot be submitted with errors.

## SUBMIT STATS

To submit your statistics to the conference, click **Submit Stats** link on the Main Menu. After the icons confirm the completion of the tables. Click **Submit Statistics** to send the tables to the conference.

### Submit your Statistical Reports

This is where you submit your statistics to the Conference Office. By clicking on the button below, you are submitting the information from Tables 1, 2, and 3. YOU WILL NOT BE ABLE TO CHANGE THIS INFORMATION unless you contact your district office.
